

11 September 2017

Dear Parent/Carer

Students from Key Stage 3-5 will have the opportunity to engage in a diverse Tutorial Time Curriculum that allows them to take part in a range of structured, planned activities linking to PSHE, Literacy, Thrive, International Links and Behaviour.

In regards to PSHE, students will participate in a series of sessions that allow them to develop knowledge and understanding of the following areas: - Health & Well-Being, Relationships, Economic Well-Being, Careers, and The World of Work & Campaigning.

Throughout the year students will have a series of lessons and external visits in order to deepen their understanding of health and well-being (including puberty, human reproduction, pregnancy and the physical and emotional changes of adolescence) and sexual health. If you would prefer your child not to participate in activities exploring this subject matter, please return the slip below.

Please complete the slip below and return to Miss A Thomas in D06 by Wednesday 13 September.

Yours sincerely

A Thomas
