Further guidance for educational settings has been published at the following links and will be updated as soon as possible with the above advice and any further changes: :

Public Health England and Department of Health have advised that schools do not need to close in relation to COVID 19 (even if there are associated possible cases currently undergoing testing). If a confirmed case is identified with links to a school, specific advice would be given on a case by case basis and parents and students would be updated appropriately.

Yours sincerely
