

20 July 2023

Dear Parents / Carers

As part of E-ACTs aim to reduce energy usage and improve our carbon footprint we are investing in the installation of photovoltaic cells on the roofs of our schools wherever possible including at North Birmingham Academy. This work is planned to take place between August and September this year and will immediately start to provide the school with clean electricity, reducing greenhouse gas emissions and our reliance upon the National Grid.

You can see further details of what we have planned for NBA on the Local Authority planning portal or request information by emailing us via gogreen@nba.e-act.org.uk.

Yours sincerely

Michelle Scott
Headteacher
